

FIBER ARMCHAIR – TUBE BASE

ISKOS-BERLIN ON THE DESIGN ““One of the most difficult and noble disciplines is to design without eccentricity, creating simple, well-functioning and almost ordinary objects that nevertheless have strong identities. We designed Fiber Armchair to do just that through a clear sculptural language that refuses to compromise on comfort. It’s a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an innovative wood fiber composite, giving Fiber Armchair a unique expression and tactile texture.”

DESCRIPTION

Fiber Chair is an all-round easily understandable chair, made of a new innovative shell material of recyclable plastic and wood fibers. With an eye for detail, every line and every curve has been relentlessly altered to balance maximum comfort with minimum space. As the chair is made from natural materials, small variations in color and structure can occur.

PRODUCTION PROCESS

The wood and plastic composition is heated and poured into a mold that presses the chair’s shell. The wood base is cut from solid oak wood, polished and powder lacquered for the coloured chairs.

MATERIAL

Shell consists of a wood and plastic composi-

tion with up to 25% wood fibers, 70% PP (polypropylene) and 5% colored PP. Tube base is made from powder coated steel.

Full upholstery and front upholstery versions w. textiles from Kvadrat and leather from Camo Leathers available upon request.

CLEANING AND CARE

Clean with a moist cloth. If necessary use a little dish soap on the cloth. For upholstery versions, please find cleaning instructions for your chosen textile at kvadrat.dk or for leather at ca-mo.com. For leather upholstery versions: Clean the leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products for anilin leather.
