MAINTENANCE

Clean the fabric with a damp cloth. Use a neutral soap to remove stains and wipe briefly with a damp cloth.

Do not rub, but dab! The rubbing can cause spots in the fabric.

Direct sunlight always causes discoloration, so always try to prevent this. Discolored recycle leather never regains its original color. Recycle leather cannot be treated with grease for leather.

Classic

THE DESIGN

The Rodeo Classic series has a classic twist thanks to the slim metal legs and the use of robust and special materials. The stitched out seams and stitched seat cushions give a sturdy touch to this series. Together with the sleek design, these are elegant details that ensure a nice balance between chic and sturdy.

This contemporary and yet timeless series is available in all colors and fabrics of the Rodeo series.
