

Extend – Design: Strand & Hvass

DESCRIPTION

- The table has a timeless expression with strong, simple lines that signal stability and elegance.
 - The Extend table has built-in honey comb extension leaves and a unique fold-out system hidden inside.
 - The hidden extending leaves are easily pulled out by pulling at the end of the table to accommodate four extra seats.
 - The table is crafted from solid oak, while the extensions leaves feature a honeycomb interior construction that makes them at once very durable and lightweight

HISTORY

- Designed by Strand+Hvass in 2007 for Carl Hansen & Son.

THE DESIGNER

STRAND+HVASS are part of a new breed of Danish designers who are creating tomorrow's classics - today.

The design firm, based in Copenhagen, was founded in 1998 and is run by Christina Strand, MDD. and Niels Hvass, MAA. Strand+Hvass began working for Carl Hansen & Søn (then via Tranekaer Furniture) in 1999, and have created a number of pieces for the company.

VARIANTS CHOICES AND DIMENSIONS

MATERIAL MATRIX

	Soap	Oil	White oil
Oak	●	●	●

Oak and ash have a clearly visible wood structure when painted. Beech has minimal structure when painted. Oak is available only in black (NCS S9000-N).

ENVIRONMENTAL INFORMATION

Carl Hansen & Søn and sustainability

People's fascination of the combination of good design and wood, as well as other natural materials, is something that transcends time and fashion. At Carl Hansen & Søn, we believe that this fascination helps to explain the great interest in our furniture, and we take very seriously concerns about the sustainability of the natural resources upon which we depend for our products. That is why we strive every day to improve our production methods, logistics and sales efforts in respect of scarce natural resources.

We buy wood only from sustainably managed forests. All sourced wood meets EUTR 2013 regulations, Danish Forest Legislation and current international certifications. Oak, beech and ash come primarily from Danish forests which are managed according to the principles described in Denmark's National Forest Programme; some of these wood types are also sourced from other similarly managed European forests, or, in the case of walnut and cherry, North American forests.

We use every possible bit of these fine hardwoods in our furniture production. Inevitably, however, there are some scraps, which are then used to produce other products or recycled in district heating plants.

TESTS AND CERTIFICATIONS

All tests and certificates are available on request.
